### About NuSep

NuSep (ASX: NSP) is a publicly listed life sciences company that sells products into the global bioseparations market. The company has offices in both Sydney, Australia and Atlanta, USA.

With a 30 year heritage in biological separations, NuSep has forged a world class reputation for its innovative yet simple biological separation techniques including the world's first IVF sperm separation device. In short NuSep has redefined the BioSeparations market through innovation and simplification.

NuSep's world renowned research team has developed an extensive portfolio of patented products. In all, NuSep currently manufactures, distributes and sells 55 products to customers in the USA, Europe, Asia and Australia.

NuSep Products:

-  **Gels** – NuSep manufactures and sells precast gels including the innovative iGels, with a 2 year shelf life.
-  **Separation Instruments** – NuSep has developed two unique biological separation instruments. The first instrument released in 2008 can separate biological samples into 8 fractions for use in the proteomic market. The second instrument (SpermSep) separates sperm for fertility treatments such as IVF. Initial successful clinical trials were completed in late 2008 and final clinical trials will be undertaken in 2010 with sales to occur later that year.
-  **Biological Products** – NuSep supplies research grade biological products manufactured using its unique separation technologies. These products include human IgG and Albumin.
